

# Fishing Season Opener on Deer Creek

Wave 12 Aug 1984

April 14 marks the opening of the 1984 fishing season on Deer Creek Reservoir. The trout limit will be eight. All regulations are the same as usual. All persons licensed to fish are required to buy a trout stamp before fishing for trout. Deer Creek Reservoir is the ONLY water open for fishing in Wasatch County. The term reservoir refers to all water at and below the standing water level existing at any time within the reservoir. A stream or river flowing into a reservoir is not considered part of the reservoir. The Provo River between Charleston Bridge and the reservoir standing water is closed to fishing. Thousands of Brook, Albino, and Rainbow trout have been stocked in Deer Creek, they range from one-half pound to 8 pounds in size. Conservation Officer Mark Connolly predicts fishing will be very good prior to spring run-off. Spring Range Rides

April 13 the annual spring range ride by horseback begins at Deer Creek Dam at 9:00 a.m. On April 14 the ride begins at the Wallsburg turn at 9:00 a.m. and will last until mid-afternoon. The public is welcome to bring a horse and come along to check deer and elk condition as well as their range condition.

To alleviate the problem of over crowding on opening day, the Division of Wildlife Resources has announced that Deer Creek will be opening on April 14, for

general trout fishing. The fish hatcheries have been stocking the lake with catchable fish during the past week.

Richard Joseph Horrocks, III, has received a mission call to serve in the Los Angeles Mission.

Mr. and Mrs. Frank Johnson and family enjoyed watching conference together at their Midway home.

\*\*\*

We here in Midway are proud to tell you that one of our newest apostles, Dr. Russell Nelson, has a home in Midway. We acknowledge his greatness in his occupation and will miss him when we need our heart operations and we acknowledge his great and deep spirituality and love both for our Father in Heaven and for us. We hope he will have time to use his Midway home more.

Wednesday was a big day for us. After chores and breakfast Henry and I took off for our first trip together through a national park. We went through Capital Reef. We left here at 8 a.m. and returned home at 11:50 p.m. Next time we would like to make it a week. There so many beautiful mountains and a beautiful day.

Happiness is the difference of U and I. For example take the words kiss and kuss. Now take the Morse code for I which is two dots .. now put those two dots over the U. Now you have kuss, an unlauted U which in German means kiss and if you kiss your mate instead of kuss him or her I think your day will go as much better as mine has since my husband learned the Morse code and how to use it effectively with U and I.

# Chris Christensen Finishes Season at UTech

U.T.C. has just wrapped up its 1983-84 basketball season, finishing with the best record in the school's history.

The Wolverines, are coached by Vince Miner, who led the team to several tournament championships, including the "Pima, Arizona Invitational," and the Western Wyoming Tourney," in which they brought home the school's first and only, first place

State Health Department and the Utah State Geologic and Mineralogic Survey.

Any interested persons wishing to speak may do so at the hearing or may submit their comments in writing.

Any interested persons are invited to attend.
